Preserving, Protecting & now Progressing: Protim Services changes its name to ProTen Services

Protim Services Ltd, the leading timber and damp control specialists, are proud to announce that the company has changed its name to **ProTen Services Ltd** with immediate effect.

The change of name to **ProTen Services Ltd** demonstrates that the Company's range of services, designed to protect the occupants as well as the buildings that they live in, now falls into ten distinct categories, whilst still maintaining a connection with the distinct Protim heritage and tradition. The ten service categories are:

- rising damp control
- woodworm & rot treatment
- cellar & basement waterproofing
- timber resin repair systems
- structural wall stabilisation & crack stitching
- cavity wall tie replacement
- anti-roosting bird control systems & fouling removal,
- radon testing & remediation
- environmentally sustainable systems
- air quality management.

David Marshall, Chairman, **ProTen Services Ltd** comments: "The Company's roots date back to 1928 and the change of name is the latest milestone in its evolution. We recognise that, whilst there is still a market for our traditional services, demand for innovative solutions to modern concerns regarding properties and the potential implications for their occupants' health in addition to the environment is increasing, and so we have expanded our range of services to ensure that we can satisfy these demands. Over the past 80 years, we have created strong partnerships, enabling us to offer an unbeatable level of protection to our clients and their properties. Our team of surveyors and operatives are professional, knowledgeable and bring a wealth of expertise in these niche fields. Our aim is to continue to be market leaders in our traditional fields with the change of name to **ProTen Services** giving us the means through which to match our success in new domains."
